FIVE - STAR GYMNASTICS CLASS INFORMATION AND DESCRIPTIONS

Welcome to the Five-Star Gymnastics program, designed to provide quality instruction for the beginner recreational student through to the advanced competitive gymnast. Each class is developmentally appropriate and follows a curriculum aimed at building confidence and competence in a supportive and professional environment. Classes are grouped according to ability and we monitor our student-staff ratio of 9:1.

Baby-Tots (10-20 Months) – This program is geared towards the exploration of movement and the development of social skills. First-time walkers are introduced to stimulating experiences through the art of play, while Mom and Dad enjoy the advantages of watching their child learn gross motor gymnastics skills and coordination. Parents will also enjoy the benefit of social interactions with other moms and dads.

Super Tot-Nastics (18-36 Months) – In this program, listening and comprehension skills improve as children are exposed to basic gymnastics instruction. Parental involvement is gradually decreased through activities that help build the children’s confidence. This program also helps with the sometimes difficult task of “**separating from Mommy and Daddy.**” Parents will also enjoy the benefit of social interactions with other moms and dads.

Stars & Tykes (3-4 Yrs) – Students receive encouraging positive reinforcement to help them develop basic gymnastics expertise needed to develop future gymnastics skills on all apparatus. This class is also designed to build self-esteem and further develop the beginnings of your child’s independence. Running, jumping and gymnastics skills are taught using safe, state-of-the-art gymnastics equipment.

Transition (5-6 Yrs) – At this stage, learning is intensified through more challenging activities and skills designed to further develop hand–eye coordination, gross motor proficiency and the spirit of group cooperation. Classes are no longer co-ed. Girls are taught to do uneven bars, balance beam, floor exercise, the vault, the tumble track and the trampoline. All instructors use skill progressions to develop and monitor student progress.

Recreation (7-17 Yrs) – Building on the skills acquired in Transition, students are taught intermediate to advanced skills on all the apparatus. Students at this stage should know all basic positions and will follow a course of instruction designed to provide a thorough grounding in all skills, including round-offs, front and back walkovers, front and back handsprings, with sequences and progressions tailored to the student’s skill level.

Accelerated (7-17 Yrs) – Girls are taught advanced through team level skills and must be able to perform a back handspring on their own before enrolling in this class. NOTE: STUDENTS MUST BE TESTED **BEFORE** ENTERING THIS LEVEL TO ENSURE ALL NECESSARY SKILLS ARE IN PLACE. Instructors closely monitor student progress and depending on student’s ability and interest, may be considered for USAIGC Team Placement.

Open Skill Session participants under the age of 18 **MUST** be enrolled in a Five-Star class or be evaluated by a Five-Star Head Instructor/Director to participate in any skill session.

MAKE-UP POLICY

MAKE-UP POLICY: In the event of absences or class closures, students enrolled must make-up their classes **within TWO WEEKS of the absence**. Classes which are **NOT** made-up within **TWO WEEKS** are forfeited and will not be credited. Non-attendance for any scheduled make-ups will also be forfeited and will not be credited. In the case of long-term illness, please contact CS&R and arrangements will be made regarding missed classes.

Please call 516-887-6600 to schedule a make-up class.
A pass is required from the front desk prior to entering class.
